

Hopefully, this list will be ever evolving. Please help me keep it up to date by messaging me with information on new or current listings or on any categories you think maybe should be added etc. There are several businesses who choose not to be listed on public sites because they already have "too much work." This list is limited to businesses who already advertise publicly in different places and/or where I have checked with them and gotten their permission to list. If you have a business's contact information and believe it should be listed here, please include information re. where else they advertise publicly or how we can get their permission to list. Also, encourage them to join the group and contact me directly if you can. I will try to keep it up to date and slowly add more information re. names/locations/web addresses/etc. Thanks. The list is divided into three sections: **Person to Person -- Household Maintenance & Repair Services -- Building & Construction**. There will be sub-headings under each of those. In some cases a business will be listed in more than one place.

PERSON to PERSON

<https://www.sagecaremn.com/>

We are a home management company providing services such as housekeeping, meal preparation, and transportation for Cook County's retired and special needs residents. Our purpose is to help others maintain a high quality of life by assisting with the tedious chores of daily living that may have become too strenuous or otherwise inconvenient for our clients to complete by themselves. Services can be provided as a one-time amenity or regular visits can be arranged based on the client's wants and needs.
